STATE OF CALIFORNIA STATE WATER RESOURCES CONTROL BOARD

DIVISION OF WATER RIGHTS

ORDER

A DOT TO A MTON	25550	10 T2T3 V CT (II)	1 7 7 A A C	LICENSE	
APPLICATION	25558C	PERMIT	17709C	TTCENSE	

ORDER TO CORRECT THE DESCRIPTION OF THE POINT OF DIVERSION, POINTS OF REDIVERSION, AND PLACE OF USE

WHEREAS:

- 1. Permit 17709C was issued to Anthony M. Truchard and Jo Ann M. Truchard on June 7, 1984 pursuant to Application 25558C.
- 2. The point of diversion, storage and point of rediversion, points of rediversion and place of use should be revised to conform with the revised map and as a result of an inspection made on December 21, 1988.
- 3. The State Water Resources Control Board has determined that said correction will not initiate a new right nor operate to the injury of any other lawful user of the water and that good and sufficient cause has been shown for said correction.

NOW, THEREFORE, IT IS ORDERED THAT:

1. Paragraph 2 of this permit pertaining to the points of diversion and rediversion be described as follows:

Point of Diversion:

POD #3: California Coordinate System, Zone 2, N 224,900 and E 1,907,300, being within the NW% of NE% of projected Section 17, T5N, R4W, MDB&M,

Storage and Point of Rediversion:

POD #6: California Coordinate System, Zone 2, N 225,000 and E 1,907,400, being within the NW% of NE% of projected Section 17, T5N, R4W, MDB&M,

Points of Rediversion:

POD #4: California Coordinate System, Zone 2, N 227,200 and E 1,907,500, being within the SW χ of SE χ of projected Section 8, T5N, R4W, MDB&M,

POD #5: California Coordinate System, Zone 2, N 225,900 and E 1,907,700, being within the NW½ of NE½ of projected Section 17, T5N, R4W, MDB&M,

POD #7: California Coordinate System, Zone 2, N 223,700 and E 1,907,500, being within the SW½ of NE½ of projected Section 17, T5N, R4W, MDB&M.

Permit 17709C (Application 25558C) Page 2

Paragraph 4 of this permit pertaining to the place of use be described as follows:

```
4 acres within SW% of NE% of projected Section 8, T5N, R4W, MDB&M, 5 acres within SE% of NE% of projected Section 8, T5N, R4W, MDB&M, 28 acres within NW% of SE% of projected Section 8, T5N, R4W, MDB&M,

ORDER

APPLICATION	25558C	PERMIT	17709C	LICENSE

ORDER TO CORRECT THE DESCRIPTION OF THE POINT OF DIVERSION ADD TO THE PLACE OF USE AND POINTS OF REDIVERSION AND APPROVE A NEW DEVELOPMENT SCHEDULE

WHEREAS:

- 1. Permit 17709C was issued to Anthony M. Truchard, and JoAnn M. Tuchard on June 7, 1984 pursuant to Application 25558C.
- 2. A petition to add points of rediversion on Unnamed Streams, add to the place of use, correct the description of the point of diversion, and a petition for an extension of time within which to develop the project and apply the water to the proposed use have been filed with the State Water Resources Control Board.
- 3. The permittee has proceeded with diligence and good cause has been shown for the said changes and for the extension of time.
- 4. The Board has determined that the petitioned changes do not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.

NOW, THEREFORE, IT IS ORDERED THAT:

Condition 7 of the permit be amended to read:

COMPLETE APPLICATION OF THE WATER TO THE PROPOSED USE SHALL BE MADE ON OR BEFORE

December 31, 1994

(0000009)

2. Paragraph 2 of this permit regarding correction and addition of points of diversion, points of rediversion and storage be amended to read:

POINT OF DIVERSION:

South 2,250 feet and West 2,000 feet from NE corner of projected Section 17, T5N, R4W, MDB&M, being within the SW\ of NE\ of said Seciton 17. It is also described in California Coordinate System, Zone 2, N 224,300 and E 1,907,100.

Permit	17709C	(Application	25558C)

Page 2

POINT OF DIVERSION FOR STORAGE AND REDIVERSION:

South 1,600 feet and West 1,750 feet from NE corner of projected Section 17, T5N, R4W, MDB&M, being within the SW% of NE% of said Section 17. It is also described in California Coordinate System, Zone 2, N 224,800 and E 1,907,300.

POINTS OF REDIVERSION:

South 550 and We4st 1,250 feet from NE corner of projected Section 17, T5N, R4W, MDB&M, being within the NE% of NE% of said Section 17. It is also described in California Coordinate System, Zone 2, N 226,000 and E 1,907,900.

South 2,750 feet and West 1,600 feet from NE corner of projected Section 17, T5N, R4W, MDB&M, being within the NW% of Se% of said Section 17. It is also described in California Coordinate System, Zone 2, 223,800 and E 1,907,600.

North 500 feet and West 250 feet from SE corner of projected Section 8, T5N, R4W, MDB&M, being within the SE% of SE% of said Section 8. It is also described in California Coordinate System, Zone 2, N 227,100 and E 1,908,800.

North 700 feet and West 1,600 feet from SE corner of projected Section 8, T5N, R4W, MDB&M, being within the SW% of SE% of said Section 8. It is also described in California Coordinate System, Zone 2, N 227,300 and E 1,908,400.

Paragraph 4 of this permit regarding the place of use be amended to read:

198 acres total located as follows:

- 2 acres within the NE% of SE% of projected Section 8, T5N, R4W, MDB&M, 32 acres within the SW% of SE% of projected Section 8, T5N, R4W, MDB&M, 16 acres within the SW% of NE% of projected Section 8, T5N, R4W, MDB&M,

- 32 acres within the NE% of NE% of projected Section 8, T5N, R4W, MDB&M
- 22 acres within the NW% of NE% of projected Section 8, T5N, R4W, MDB&M,

- 37 acres within the SE% of SE% of projected Section 17, T5N, R4W, MDB&M, 32 acres within the SW% of SE% of projected Section 17, T5N, R4W, MDB&M, 13 acres within the NE% of SE% of projected Section 17, T5N, R4W, MDB&M,

14 acres within the NW% of SE% of projected Section 17, T5N, R4W, MDB&M.

PERMIT 17709C

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 48 acre-feet per annum to be collected from November 1 of each year to May 15 of the succeeding year.

This permit does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose.

The maximum rate of diversion to offstream storage shall not exceed 1 cubic foot per second.

- 6. The amount authorized for appropriation may be reduced in the license if investigation warrants.
- 7. Complete application of the water to the authorized use shall be made by December 1, 1987.
- 8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued.
- 9. Permittee shall allow representatives of the State Water Resources Control Board and other parties as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit.
- 10. Pursuant to California Water Code Sections 100 and 275, and the public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses, prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to minimizing waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) to installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action takes into account the public interest and is necessary to protect public trust uses. All such actions shall conform to the standard of reasonableness contained in Article X, Section 2 of the California Constitution.

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

Permit 17709C

12. The State Water Resources Control Board reserves jurisdiction to impose conditions to conform this permit to Board policy on use of water for frost protection. Action by the Board will be taken only after notice to interested parties and opportunity for hearing.

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).
